A career that gives you more

Your career at NAB is about more than money, it's about serving our customers well and helping our communities prosper. We are current sourcing for a Software Developer.

We're changing at NAB. Our goal is to build a world class information management and engineering culture to enable us to deliver an unprecedented pace of change and a customer experience second to none.

About the role

The role of Analyst Engineering will provide critical thinking and a high degree of technical innovation and attention to detail while being recognised as a trusted advisor to the team and stakeholders. The characteristics include being versatile, displaying leadership qualities and enthusiasm to take on new problems across the full SDLC, ultimately assisting in moving technology forward.

Roles and Responsibilities:

- Develop, test, deploy, maintain and improve NAB-X Native mobile software.
- Write quality testable code.
- Produce specifications and determine operational feasibility.
- Integrate software components into fully functional platform.
- Apply pro-actively & perform hands - on design and implementation of best practice CI/CD.
- Document and maintain software functionality.
- Troubleshoot, debug and upgrade existing systems.
- Deploy programs and evaluate customer feedback.
- Comply with project plans, industry standards and regulatory requirements.

Your Skills and Experience:

- Platform automation tools (DB Management, AWS, Jenkins, GITHUB).
- Knowledge or understanding of tech tools such as ServiceNOW, Rally.
- Full-stack development using React, React Native.
- Understanding of Object-Oriented Design and Object-Oriented Programming Concepts.
- Knowledge and familiarity with Design Patterns and Principles.
- Software Delivery technical skills such as CI/CD, Automated Deployments, Automated Testing, Build Servers, Software / Source Code.

To be eligible to apply, you must have Australian or New Zealand citizenship or permanent residency status. Please note candidate screening and interviews may be conducted prior to the closing date of the job advert.

To help keep our community safe, candidates are required to comply with vaccine requirements outlined in state based public health orders
